

No Sew Rosette Tutorial

Supplies Needed:

Hot glue gun or fabric adhesive

Scissors

Pliers

Wire cutters

Rosette-Bead Necklace Kit: 1 torn strip of fabric approx. 1" wide, super glue
2 squares of fabric approx. 2" x 2", 4-5 large beads, 4-6 small beads, bead for center,
chain, string, 2 jump rings, and clasp.

Step 1: Tie a knot at the end of strip of fabric. Glue knot to one of your square pieces of fabric with a hot glue gun or fabric glue.

Step 2: Hold the knot with thumb and wrap fabric around the knot. Roll and twist the fabric as you circle the knot.

Step 3: Adhere strip to square fabric as you continue to wrap and twist the fabric.

Step 4: When rosette is made to desired size, trim remaining fabric around the edges.

Step 5: Add button or bead to center. Next, you can make the rosette necklace or adhere rosette to a clip, headband, and more.

Step 6: Tie string to one end of metal chain with a square knot. Tie 2-3 knots pulling very snug. Add a small amount of super glue to strengthen the knot.

Step 7: Glue string and one link of metal chain between fabric flower and 2nd piece of square fabric. Trim excess fabric.

Step 8: Thread one of each bead onto string. Start with the small bead, then large, small, etc. End with a small bead.

Step 9: Cut chain to desired length. Tie string to the end of chain. Tie 2-3 square knots pulling very snug. Make sure there is no slack in string and beads are touching chain to prevent string visibility. Trim any excess string. Add a small amount of super glue to strengthen the knot.

Step 10: To Add Clasp: Cut chain in 1/2 with wire cutters or remove 1 link in center. Open a jump ring with chain nose and flat nose pliers. Slide the chain onto the open jump ring, slide the loop at the end of the clasp onto the same open jump ring, and close the jump ring. Repeat for other side of clasp. Wear and enjoy!
