

Before beginning, cut (6) 3" x 4" pieces of chipboard to be the base of your mini album. Adhere the following pages below to each chipboard piece.

1

Trim the pink paper to 3" x 4". Adhere to chipboard page. Add a 2 3/4" x 3 3/4" kraft paper to the center. Punch a 2 1/2" circle & pop-dot as shown. Place 2 layers of the pink flowers & a brown felt flower together with a gold button in the middle. Adhere scallop border.

2

Trim the brown/white dot paper to 3" x 4". Adhere to another chipboard page. Attach a 4" sheer ribbon to the left side. Add a 2 1/2" pink circle off the left edge; trim excess. With a pop-dot, place a punched kraft-colored flower & button in the center.

3

Cut the time card into (2) 3" x 4" pieces. (Set 1 aside for page 6). Adhere 1 to another chipboard page. Attach a border strip to the left edge. Place a 2 1/2" kraft circle to the right bottom corner; trim excess. Add flower & buttons.

4

Place the pre-printed note card to the right edge of another chipboard page. Add border strips to the left edge. With a pop-dot, attach a punched flower to the bottom left corner. Add epoxy word sticker.

5

Trim the floral paper to 3" x 4". Adhere to chipboard page. Place a 2 1/2" kraft-colored circle to the bottom left corner; trim excess. Attach the wired flower over it. Add the epoxy word sticker.

6

Adhere the other half of the time card to another chipboard page. Place a border sticker to the left side. Add the epoxy word sticker. Apply flower rub-on to a kraft-colored 2 1/2" circle, then attach it to the upper right corner; trim excess. Put epoxy circle in the center.

- With a pencil, mark two holes on the top of each page. Make sure they are in the same exact locations for all the pages (or they will not align properly). Punch each hole individually.
- Arrange the pages in order, and all of the top holes are aligned.
- Open the binder rings and insert each one into one set of holes. Close the binder rings for now to keep book intact.

CREATING TWO BEADED WIRE LOOPS

Take a 6" wire and create a round loop & twist to close. Thread beads through and create another round loop to lock the beads in place. Trim off excess wire. Keep them short so that the album will "hang."

Create 2 beaded loops.

Open the binder rings on the mini book. On each ring, thread one end of the beaded loop, then close the binder rings.

Hang the free ends of the beaded loops on the stand as shown. Add photos. Admire your new hanging mini album!
